

SENSORI™
CUSTOM SHOWER SYSTEM
BRIZO®

A black and white photograph of a shower stall. Three showerheads are mounted on a white tiled wall, each spraying a wide, fan-shaped stream of water. The water droplets are captured in mid-air, creating a dense, misty atmosphere. The background is a dark, textured surface, possibly a shower curtain or a wall panel. The text "HOW MANY SENSES DOES" is overlaid in the center of the image in a white, sans-serif font.

Sensori body sprays blanket you with a warm, soothing rush that can be completely customized, transporting you to a new world of luxury. And with a finished spray face that matches the full bath finish, they coordinate as beautifully as they function.

SMARTER LUXURY

It's what's inside that counts.

In creating the perfect shower experience, no point is too small to dwell on. We spent countless hours obsessing over Sensori's intelligent new Thermostatic valve. This state-of-the-art technology keeps water temperature remarkably consistent, within a precise range of plus or minus three degrees.
