## Standard equipment

**hotel-max. and carry-max. service trolleys:** Chassis made of aluminium and plastic. Handle made of polyamide, fibre-glass reinforced polyamide frame.

Wire mesh bottom tray to carry the service basket, particularly generous size on the hotel-max.

**Additional extra on hotel-max. service trolley:** Integrated wire basket on the control handle. Black plastic powder coating.

**Castor wheels:** Made of plastic with non-wearing tread.

**hotel-max. and carry-max. service basket:** Plastic in woven willow look. Food-safe, heat-resistant to 70°C and UV stable. Washable and dishwasher safe.

**Extras on the hotel-max. service basket:** There are two basket heights, each equipped with a small item basket. Additionally, the shorter version\* has compartment dividers.

\*Height 440 mm

# Cartless system

*Elegant and manoeuvrable multi-function trolleys by Wanzi*

■ The hotel-max. and the carry-max. are constant and unobtrusive companions, helping housekeeping staff perform their duties without detracting from the overall ambience of upmarket hotels.

## Can be folded flat to save space

The hotel-max. and carry-max. service trolleys can be folded down to occupy very little space when they are not needed. It really does not get any more practical. Both very quickly become indispensable.

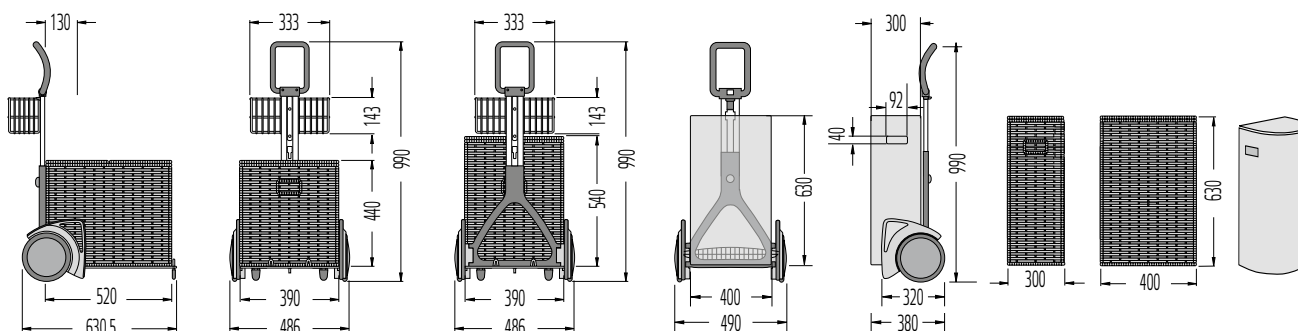

## Loads of space for cleaning requirements

Everything you need for housekeeping can be comfortably accommodated in the wire basket on the control handle of the hotel-max.

## Ideal for separating

Unbreakable service basket with compartment divider, ideal for separating clean and dirty laundry.
